VISION AND MISSION

bestinfraproducts.com

VISION

To position BIP as a benchmark in the Construction Industry, recognized for innovation, sustainability, and excellence, while fostering lasting relationships through quality and trust.

MISSION

To deliver premium Building Materials and solutions tailored to our customers' needs, leveraging advanced technology and sustainable practices, while maintaining a commitment to safety, reliability, and environmental care.

ABOUT COMPANY

AIM: Our Aim Is To Deliver The Best Building Materials to Customer. Our Customer Satisfaction is First Priority.

ABOUT COMPANY:

Our Company is a leading supplier of high-quality building materials, offering durable solutions for residential and commercial construction. We provide reliable products with a focus on sustainability and customer satisfaction.

OUR TEAM:

Best Infra Products comprises a team of dynamic, passionate, and dedicated professionals who strive to go beyond expectations to deliver customer delight. We've got experience of over a decades and worked with many market leaders in the industry. Our extensive knowledge in the construction and infrastructure space helps provide our clients with innovative and optimized solutions, helping our partners grow with us.

ABOUT OWNER

The owner's visionary leadership has driven the growth of the company from a single 6-wheel TATA tipper to a leading name in the building materials industry. With a focus on innovation, they pioneered advancements like semi-automatic CC block shaping, state-of-the-art crushers, and a fully equipped RMC plant, expanding operations to meet the growing needs of the market. Their dedication to excellence continues to shape the company's success and reputation.

-Ramachandra S N

OUR SERVICES

AGGREGATES :

Our crusher plant provides reliable, high-quality crushing solutions for construction and roadwork needs. Using advanced equipment, we transform raw materials into precise aggregates with consistent quality. We ensure timely service, competitive pricing, and eco-friendly operations for your satisfaction.

OUR SERVICES

CONCRETE :

Our ready-mix concrete services deliver reliable, high-quality solutions for construction projects of all requirements. Using advanced batching technology, we provide consistent, durable concrete with timely delivery, competitive pricing, and eco-friendly practices to meet your construction needs.

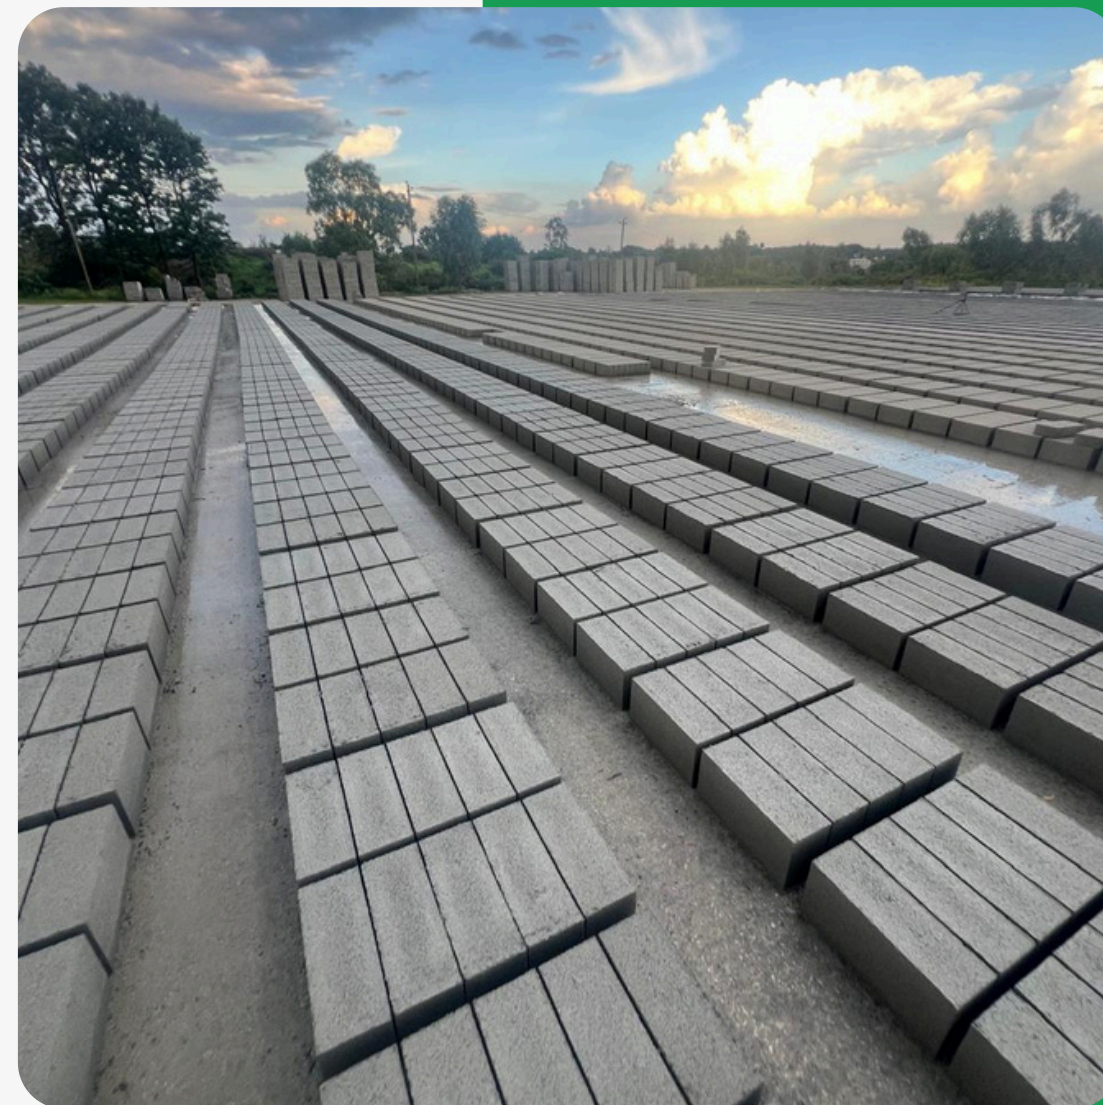

OUR SERVICES

CONCRETE PRODUCTS :

We offer a wide variety of concrete blocks, including cement and specialty bricks, designed for durability and precision. Our high-quality products ensure strength and reliability for any construction project, supported by timely service and competitive pricing.

OUR SERVICES

ASPHALT :

Best Infra Products proudly unveils its new state-of-the-art asphalt plant, designed to deliver superior performance and durability for diverse and demanding projects. With a strong focus on R&D, our advanced facility ensures high material efficiency and climate-resilient solutions, reinforcing our commitment to innovation and excellence in infrastructure.

OUR JOURNEY

1992

We started our journey supplying building materials with just one 6-wheel TATA 12-ton tipper, laying the foundation for our growth and success.

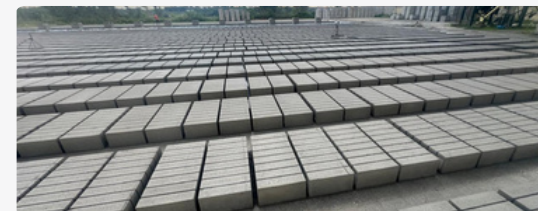

1996-2004

In 1996, we expanded with 1612 SE vehicles and increased sand supply. By 1998, operations grew to 8 vehicles, serving major customers with river sand. In 2003, we introduced semi-automatic concrete block shaping. In 2004, we launched a second-stage stone crusher with delivery services in Devanahalli.

2006-2009

In 2006, we added another semi-automatic machine to the CC Blocks segment, followed by another in 2007. By 2009, we installed a second-stage crusher at Chikkaballapur, further expanding our capabilities.

2013-2019

In 2013, we installed a 3-stage crusher in Uganavadi, marking a significant upgrade in operations. In 2017, a fully automatic CC Blocks system with a batching plant was introduced, followed by the installation of another 3-stage crusher at Peresandra in 2019.

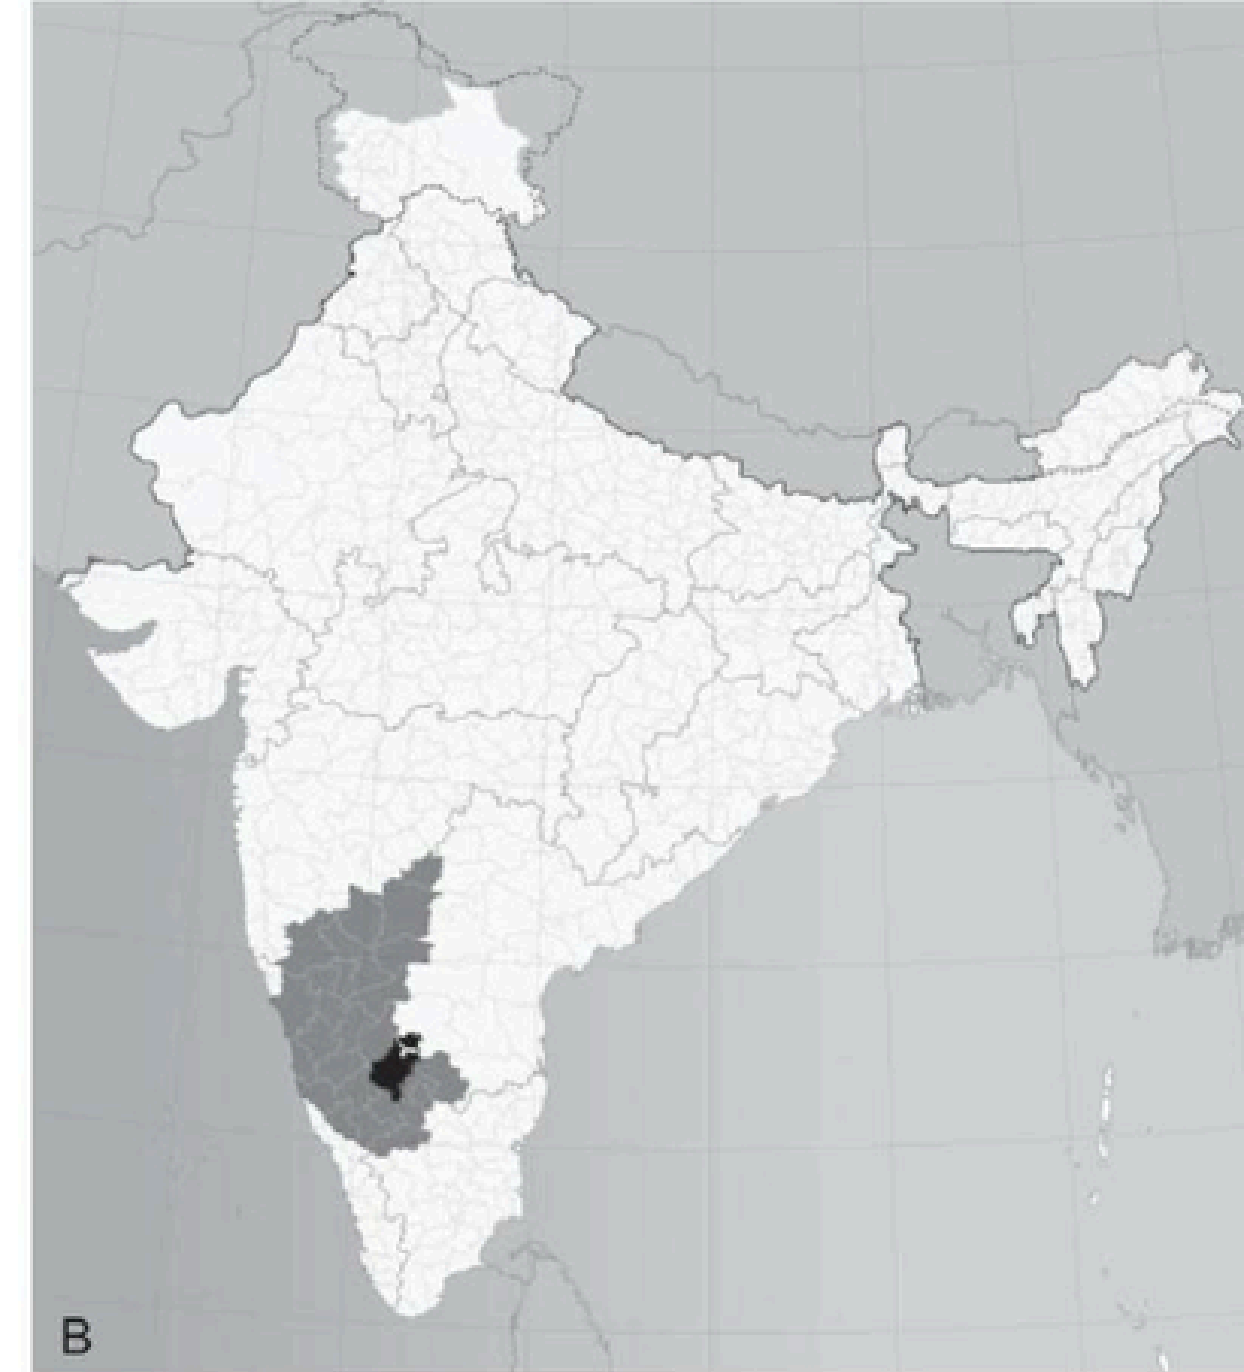

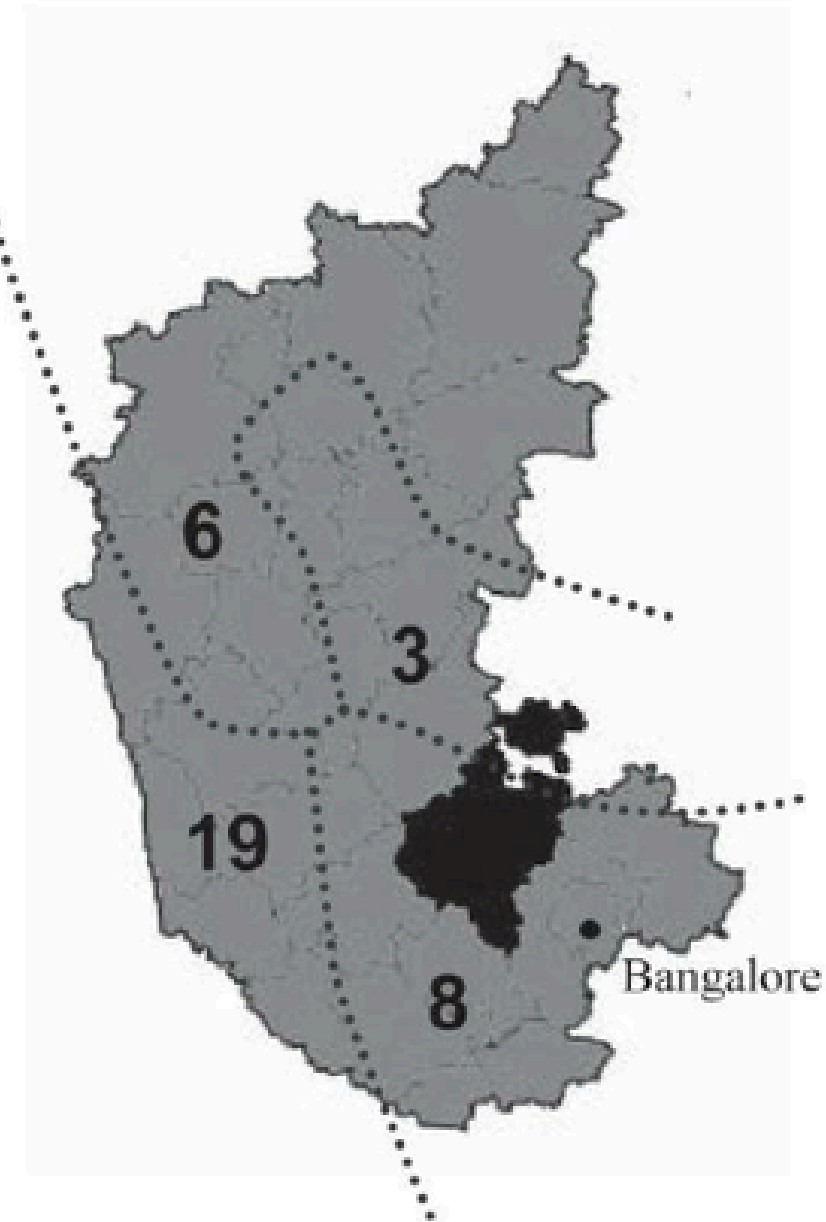

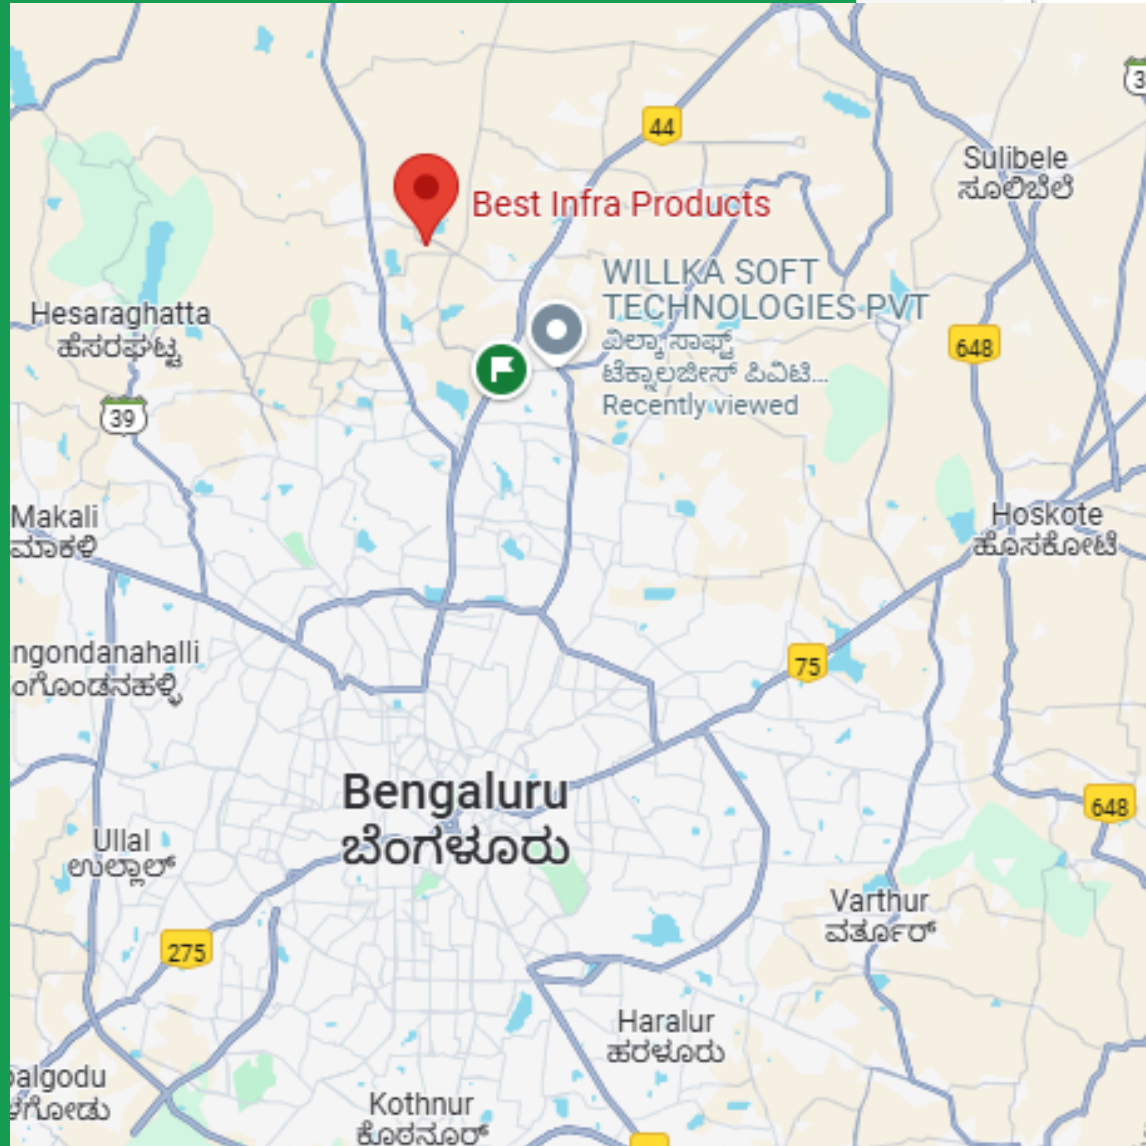

2023-2024

In 2023, we expanded with a new 3-stage crusher in Peresandra, boasting a capacity of 200 TPH. In 2024, we launched a fully equipped RMC commercial plant to serve the North Bangalore region, enhancing our service capabilities.
